History Sidebar

Burkhard Lück
History Sidebar

This dialog allows you to configure the history sidebar.

**Limits**
- The options in this section can be used to set the maximum size of your history and set a time after which items are automatically removed.

**Custom Font**
- Here you can also set different fonts for new and old URLs by selecting the **Choose Font** button.

**Details**
- The **Detailed tooltips** check box controls how much information is displayed when you hover the mouse pointer over an item in the history page.
- If checked the number of times visited and the dates of the first and last visits are shown, in addition to the URL.

Selecting **Clear History** will clear out the entire history.
